

THUSHANI MALSHA WANIGASINGHE

Undergraduate Software Engineering Student

No.127 , Tangalle , Sri Lanka • +94 0703224322 | +94 717354942 • thushanimalsha@gmail.com

LinkedIn: [linkedin.com/in/thushani-wanigasinghe-9364b4337/](https://www.linkedin.com/in/thushani-wanigasinghe-9364b4337/) • GitHub: github.com/thushaniwanigasinghe

PROFESSIONAL SUMMARY

Innovative Software Engineering undergraduate at the Open University of Sri Lanka with hands-on experience in full-stack web development, mobile application development, and automated systems. Proven ability to design and implement scalable solutions including e-commerce platforms, school management automation, and AI-powered recruitment systems. Proficient in modern frameworks including React.js, Node.js, and Android development, with a strong foundation in database design and API integration. Seeking an internship to leverage technical expertise and contribute to impactful software solutions.

EDUCATION

GCE Ordinary Level

Completed in 2016 | Full Passed

GCE Advanced Level - Technology Stream

Completed in 2019 | Full Passed

Certificate in ICT-Computer Applications Assistant

ICT Zone-NENASALA

Certificate in Human Resource Management

IBS (International Business Studies campus)

Bachelor of Software Engineering

Open University of Sri Lanka | 2022 – 2026

- Core Competencies: Full-Stack Development, Mobile App Development, Database Design, System Automation, API Integration, Software Architecture

TECHNICAL EXPERTISE

Programming Languages & Core Technologies

JavaScript , Java, Python, SQL, HTML5, CSS3,

Frontend Development & UI Frameworks

React.js, Bootstrap, Material-UI, Responsive Design, Single Page Applications (SPA), UI/UX Implementation

Backend Development & APIs

Node.js, Express.js, RESTful API Design, Authentication & Authorization, Server-Side Logic, Microservices Architecture

Mobile Application Development

Android Development (Java), Android Studio, Mobile UI/UX Design, Google Maps API Integration, Location-Based Services

Database Management & Data Solutions

MySQL, MongoDB, Firebase Firestore, Database Design & Normalization, SQL Query Optimization, NoSQL Databases

Development Tools & Version Control

Git/GitHub, VS Code, Android Studio, Postman, npm, Chrome DevTools, Debugging & Testing

Software Engineering & Automation

Process Automation, Email Integration, Notification Systems, Agile Development, Code Documentation, System Architecture Design

PROJECT EXPERIENCE

Automated School Attendance & Management System | 2025

GitHub: [github.com/ thushaniwanigasinghe /school-management](https://github.com/thushaniwanigasinghe/school-management)

- Automated school management system eliminating manual attendance marking and reducing administrative workload
- Implemented real-time relief teacher notifications and automated scheduling system
- *Technologies: React.js, Node.js, Express.js, MongoDB, RESTful APIs, Automated Notification System*

Virtual Memory Simulation System | 2025

GitHub: [github.com/ thushaniwanigasinghe /Virtual-Memory-Simulation](https://github.com/thushaniwanigasinghe/Virtual-Memory-Simulation)

- Simulated virtual memory management system demonstrating paging and page replacement algorithms
- Implemented FIFO and Optimal page replacement algorithms with performance analysis

AI-Powered Candidate Screening & Interview Management System | 2024-2025

GitHub: [github.com/ thushaniwanigasinghe /recruitment-system](https://github.com/thushaniwanigasinghe/recruitment-system)

- Built AI-powered recruitment platform automating CV screening and reducing hiring time by 60%
- Automated email notifications for interview invitations with candidate tracking dashboard
- *Technologies: React.js, Node.js, Express.js, MongoDB, Email API Integration, Automated Workflows*

Comprehensive Gym Management & Member Tracking System | 2024

GitHub: [github.com/ thushaniwanigasinghe /gym-management](https://github.com/thushaniwanigasinghe/gym-management)

- Gym management system with member registration, subscription tracking, and payment processing
- Automated renewal reminders and analytics dashboard improving retention
- *Technologies: React.js, Node.js, Express.js, MySQL, Payment Gateway Integration, Automated Notifications*

StyleMart - Full-Stack Smart Shopping Platform | December 2025

GitHub: [github.com/ thushaniwanigasinghe /StyleMart-Smart-Shopping-Store](https://github.com/thushaniwanigasinghe/StyleMart-Smart-Shopping-Store)

- E-commerce platform with product catalog, shopping cart, and secure JWT authentication
- Responsive UI with product search, wishlist, and RESTful API endpoints
- *Technologies: React.js, Node.js, Express.js, MongoDB, JWT Authentication, RESTful APIs, Bootstrap*

Car Rental Mobile Application | October 2025

GitHub: [github.com/ thushaniwanigasinghe /Car-Rental-Android-app](https://github.com/thushaniwanigasinghe/Car-Rental-Android-app)

- Android car rental app with real-time availability and Google Maps API integration
- Booking system with Material Design UI and location tracking services
- *Technologies: Java, Android Studio, Google Maps API, Firebase, Material Design, Location-Based Services, Mobile UI/UX*

Interactive React Calculator with Advanced Operations | October 2025

GitHub: [github.com/ thushaniwanigasinghe /react.js-calculator](https://github.com/thushaniwanigasinghe/react.js-calculator)

- React calculator demonstrating component-based architecture and state management
- *Technologies: React.js, JavaScript, Component State Management, Event Handling*

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

Software Testing & Quality Assurance

- **Cost of Software Quality** – EdApp
- **The Whole Team Approach to Continuous Testing** – Applitools
- **Setting a Foundation for Successful Test Automation** – Applitools

Test Automation & API Testing

- **Codeless Test Automation with Selenium IDE** – Applitools
- **API Test Automation with Postman** – Applitools
- **Web Element Locator Strategies** – Applitools

Programming Languages & Fundamentals

- **Introduction to Programming Using Python** – Sololearn
- **Python Data Structures** – Sololearn
- **Introduction to Java** – Sololearn
- **Introduction to SQL** – Sololearn

CORE COMPETENCIES

- **Full-Stack Development:** End-to-end application development from database design to user interface implementation with proven project delivery
- **Process Automation:** Expertise in identifying manual workflows and implementing automated solutions that improve operational efficiency
- **Problem-Solving:** Strong analytical thinking with ability to break down complex problems into manageable, scalable solutions
- **Self-Directed Learning:** Demonstrated ability to quickly master new technologies and frameworks through hands-on project implementation
- **Team Collaboration:** Experience working on team projects with effective communication and code collaboration using Git version control

ADDITIONAL INFORMATION

Languages: English (Fluent), Sinhala (Native)
